

Xtreme Pack

The most complete wildland backpack.

Xtreme Pack

Ergonomics, breathability and extreme freedom of movement

The **Xtreme Pack** features an ergonomic and breathable harness which distributes the weight of the different elements in an optimal manner over the firefighter's torso. The design offers complete freedom of movement for agile work using manual tools. The belt has an integrated 2.8 liter hydration system and features the Molle System¹ which helps arrange the accessories each user needs.

High resistance to abrasion, cuts and tears

Made with ²1000 Cordura and breathable mesh³.

Belt-integrated hydration system

Includes the Hydrapack[®] system⁵ with a tube and nozzle tip⁴ on the outside and 2.8 liter capacity with an upper opening for easy fill and cleaning. FDA-approved tank, PVC and BPA-free.

Customization

Possibility of adding a shield or logo⁶.

Colors	Orange, black and gray.
Materials	1000 Cordura and mesh.
Reflective strips	Silver gray.
Hydration system	Capacity: 2.8 l Approved by the FDA; PVC and BPA-free.
Warranty	2 years.

1 Ergonomic design and extreme freedom of movement

The ergonomic harness with optimized weight distribution guarantees full arm mobility for work on combined tasks using manual tools. Designed to be able to get in a vehicle without needing to remove the backpack.

2 Breathability

The breathable, flexible mesh increases the backpack ergonomics, providing better ventilation of the backpack parts in contact with personal protection equipment.

3 Self-adjustable belt

Includes a Molle system to attach different accessories.

4 More safety and less volume

Completely re-designed with safety as one of the main focuses (includes high-visibility strips to guarantee 360° visibility on the ground).

A wildland backpack or self-protection device?

By combining the Xtreme Pack with the fireproof **Xtreme Shelter XS 17¹** and **Xtreme-K²** breathing equipment, the Xtreme Pack can be turned into a professional self-protection device so firefighters can adapt and protect themselves from entrapment situations and escape routes. *

* See **Xtreme Kit**.

5 Opcional accessories

Personal Pouch

BVB0204-AAAOA

This pocket allows you to store food, maps and other items, protecting them from the outside.

1L Holster

BVB0205-AAAOA

Side pocket designed to carry 1L drip torches, water bottles, or personal items.

vft Radio holder

BVB0206-AAAOA

The backpack has a Molle system on the shoulder that allows a radio holder to be attached.

Xtreme Shelter

AVA1501-AAAOA

Fireproof shelter for entrapment situations during wildland fires.

Xtreme-K

AVA1702-AAAOA

Chemical Oxygen-generating respirator, with closed-circuit, single and limited use, for respiratory tract protection in case of an emergency or entrapment.

6 Size Guide - Harness

Sizes		
S-M (A = 100 - 110 cm)	L-XL (A = 111 - 125 cm)	XXL (A = 126 - 132 cm)

A= Torso
